Energy for the Future

LOAD MANAGEMENT SCHEDULE - AUGUST 2025

Load management schedule for the month of August. In an effort to maintain system stability and prevent grid collapse, additional feeders have been added to the load management schedule due to demand exceeding safe operational limits. We strongly encourage all customers to shift their electricity usage away from peak periods, specifically **6:00 to 8:00 a.m. and 5:00 to 8:00 p.m.** on weekdays. To see when your area will be affected, please consult the load management schedule below and locate your group. Note that while load management is not guaranteed, it will be implemented depending on the overall system demand. Let us work together to power a stable and reliable grid.
