

CHANGES TO LOAD MANAGEMENT SCHEDULE - JUNE 2025

EEC) wishes to inform its valued customers of changes to the load management schedule during the month of June. In an effort to maintain system stability and prevent grid collapse, additional feeders have been added to the load management schedule due to demand exceeding safe operational limits. We strongly encourage all customers to shift their electricity usage away from peak periods, specifically **6:00 to 8:00 a.m. and 5:00 to 8:00 p.m.** on weekdays. By reducing consumption during these critical hours, you can help avoid the need for load management altogether. To see whether your area may be affected, please consult the updated load management schedule below and locate your group. Note that while load management is not guaranteed, it may be implemented depending on the overall system demand. Let us work together to power a stable and reliable grid.
